We achieve this through a combination of expert Industry-Specific **Business** analysis, strong technical skills, sound project management methods and traditional values.

# How We Work..?

We take a consultative and System integrated approach towards the needs and requirements of our clients. After comprehending the need of client we offer them solutions that boost the performance of their setups and systems. But if they demand for customized solutions we

carefully select the right mix of hardware and software from our booth of solutions including networking systems. We achieve this through a combination of expert Industry-Specific **business** analysis, strong technical skills, sound project management methods.

Passionate **Approach** towards success

## Teamwork

- At Archers, it is essential that we work together as a team, harnessing the power of our combined skills, outlooks and efforts to address business opportunities and solve problems

## Integrity

- We say what we mean, and we honor our words. Integrity is central to our open and honest communications with our clients, our customers and our partners with whom we do business.

## Value Creation

- As individuals, as teams and as a company, our goal is always to create value. The company's capital resources, physical assets and professional expertise must be applied in a manner that creates maximum value for our customers.

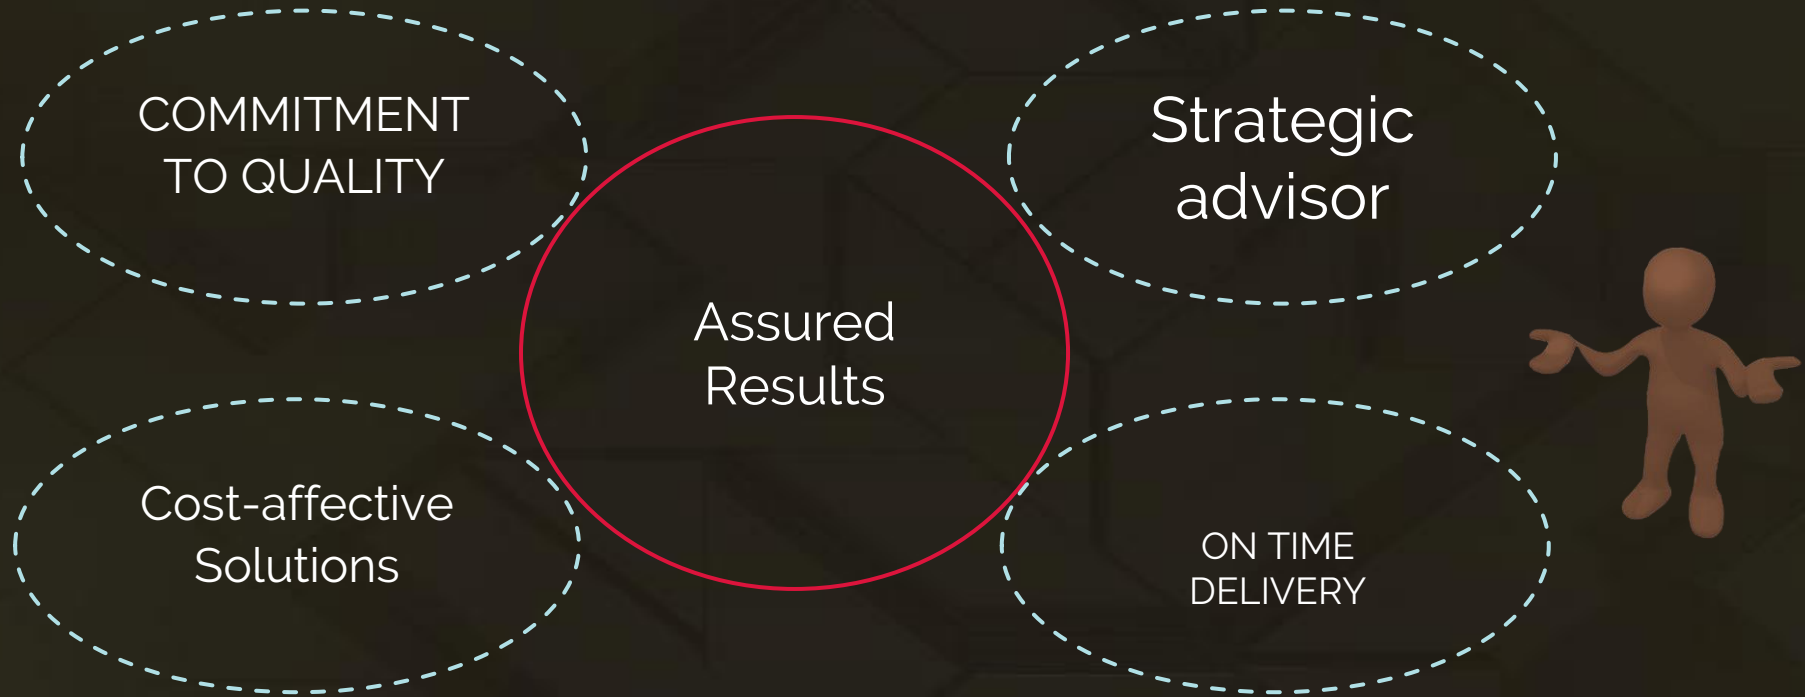

## Respect

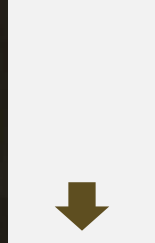

- We listen closely to everyone and equally respect. We create value for every customer. We respect the environment and work continuously to improve it.

## Exemplary Leadership

-Regardless of our positions within the industry, we are all stakeholders. We exercise leadership by developing well-thought-out plans, effectively communicating to everyone who would be concerned and then acting decisively to implement those plans.

# WHY US..?

We don't just write code...  
We develop professional software
